Dear GISAID team

We would like to follow up regarding the state of data package delivery to CoV-Spectrum. As mentioned before (mail from 22.10.25 and 27.10.25, below), we did not receive data packages since Oct. 12. Can you please update us on the status?

Furthermore, we would like to inform you about an update on CoV-Spectrum, aiming to strengthen the protection of GISAID data, see the new banner on cov-spectrum.org for details. Please let us know if you have any concerns or suggestions.

With best wishes from the CoV-Spectrum team,  
Chaoran

Dear GISAID Team,

I hope you're doing well! I just would like to follow up on my previous email regarding the data provision for CoV-Spectrum. Please let us know if there is anything that we can do from our side!

Thank you very much!

Best,  
Chaoran

**Subject:** EpiCoV endpoint not updated

Dear GISAID Team,

I'm reaching out with regard to the EpiCoV provision for CoV-Spectrum. It hasn't been updated since 12 October while it usually updates once a week. Could you please check it for us? Thank you very much!

Best,  
Chaoran
